## ACR-PM-14-84 – Technical Specifications – Pump Modul

### Technical specifications:

<b>Pump Capacity</b>	<b>kW</b>	<b>7,5</b>
Voltage / Electrical Connection	400V/3/N/PE	CEE32A Socket
Operating current	A	14,1
Degree of protection	Type	IP 55
Flow rate min / max	m <sup>3</sup> /h	14 / 84
Pressure head min / max	m	20 / 34
Max. operating pressure	bar	6
*Water connections	Storz	A
Filter	Type	KSB / DN 100
Weight	kg	350
Dimensions (l x w x h)	mm	1600x600x1250

\* Connections individually configurable on request

### Optionally accessories

Cold Water Tubes

Heat Exchanger

Electrical Cables

Ext. Buffer Storage

Different requirements and applications can be provided on request!

### Technical description:

External pump module with CEE 32A plug, with high-pressure pump, frequency converter, switch cabinet, dirt trap, gate valve and fittings mounted on a stable base frame. Extensive accessories are available as options.
